

The 90 Day Sales Blitz

"A short-term focus on sales activity and time mgt."

You don't need this program if... You can answer these 2 questions, "Yes"

Are you making sales calls every day?
Do you manage your time well?

Imagine the impact on your sales if you made a set number of calls every day for 3 months. Combine that with improved productivity and sharpened time management skills. What would it do to your sales volume—*especially new business*? 20% growth? 50%?

Salespeople and selling owners start out with good intentions. But, like going to the gym or trying to lose weight, we can't maintain any kind of consistency and we fail. Again.

If you had a personal trainer—someone who set you up for success, kept you on track, and ensured that activity goals were reached *and exceeded*—you would be a Sales Superstar!

That's what the 90 Day Sales Blitz does!

- Get set up for success: Have a plan for new business growth!
- Learn time management lessons and sell more each day!
- Set daily sales activity goals...and hit them!

More calls + better calls = More sales and better customers

Sales success isn't complicated. Don't overthink it:

1. A high-value call to the right target market, applying a prospecting process with diligence.
2. Leave today with a plan for tomorrow. Repeat. Daily. For 90 days. Success!

The cost of the Blitz is \$450, billed in three monthly installments. 100% guaranteed.

"Bill, your Blitz is the talk of my sales force. They love its competitive nature and even the reps who complained about being included are now raving about the results"
